JEEP GRAND CHEROKEE SRT8

Grand Cherokee SRT8 combines the Jeep brand's world-renowned four-wheel-drive capability with the Street and Racing Technology's balanced approach to performance. The result is the quickest, most powerful Jeep vehicle ever created, the ultimate performance sport-utility vehicle. Grand Cherokee SRT8's performance will leave many of its much-higher-priced competitors, such as Porsche Cayenne Turbo, in its dust.

JEEP GRAND CHEROKEE SRT8 HIGHLIGHTS
